Fraysen's philosophy is to put business leaders in control of their business processes; every interaction between people, equipment and products. Opportunities to build competitive advantage are limitless with the right integration of technology. ProcessPlus makes it easier than ever to bring multiple data sources together and apply just the right amount of context. This knowledge will enable your staff to see what occurs on a real-time basis and how it fits into the big picture. This empowers everyone to make rapid and informed decisions. Better decisions.

Every business intelligence company will talk about their user-friendly displays and reports, and we have that too. Fraysen goes further: ProcessPlus allows you to apply your business logic to the information at hand, and integrate your disparate processes into a cohesive system.
Finbar Gallagher is a “Big Data” pioneer with over 25 years experience in manufacturing, analysis, improvement and large scale information systems development. Finbar’s innovative technology leadership has helped companies such as Hewlett Packard, Bausch & Lomb, Oral B, Yves Rocher, Peach State Market and Glover Printing gain a competitive edge and increase ROI through business process automation and integration. Finbar led several systems implementation teams during his 12-year tenure with Hewlett Packard, most notably the engineering team that successfully introduced the first Hewlett Packard Inkjet cartridge manufacturing line to Ireland. Finbar holds a Masters in Systems Engineering from Boston University.

**ProcessPlus:**

- Takes all your data and applies exactly the analysis you require
- Brings all your data together the way you need it in real-time
- Produces eye catching charts
- Accesses data from almost anywhere you need to with simple web access

Manages Throughput and Efficiency plus:

- OEE: Overall Equipment Effectiveness
- Staff Productivity
- Fault analysis and problem reporting
- Work in process and buffer management
- Takt and Lean Process Analysis
- Targetted operations reporting from Operator to Executive suite
- Plus others

ProcessPlus is the only manufacturing and supply chain intelligence solution which synthesizes the breadth & detail of these complex systems into an integrated model. It drives application of best in class process across the operation.
